Sumatec, Borneo Aqua, Jadi, Pestech, Xidelang

KUALA LUMPUR (Jan 18): theedgemarkets.com highlighted five stocks with momentum at Bursa Malaysia's afternoon market close today. It showed one with positive momentum and four with negative momentum.

Stock with positive momentum was:

Sumatec Resources Bhd – unchanged at 10 sen

Stocks with negative momentum were:

Borneo Aqua Harvest Bhd – down one sen at 84.5 sen

Jadi Imaging Holdings Bhd – up half a sen at 7.5 sen

Pestech International Bhd – unchanged at RM2.00

Xidelang Holdings Ltd – up half a sen at 18 sen

The list of stocks with momentum is generated using a proprietary mathematical algorithm highlighting stocks with a build-up in trading volume and price. The algorithm differentiates between stocks that exhibit positive (+ve) momentum and negative (-ve) momentum.

This list is not a buy or sell recommendation. It merely tells you which stocks are seeing higher than normal volume and price movements.

The share price may move up or down from this point. But the “+ve” (suggesting a rising price trend on volume) and “-ve” (suggesting a falling price trend on volume) indicators should give readers a better idea of what the market is buying and when to sell. Note also that momentum generally only persists for a short period of time.

However, each stock has an accompanying fundamental score and valuation score to help readers evaluate the attractiveness of the stocks, if they want to ride the momentum.
