## Pestech bags Cambodia contract worth US\$100m

**PETALING JAYA:** Integrated electric power technology provider Pestech International Bhd's unit Pestech (Cambodia) Ltd has bagged a contract worth US\$100.21 million (RM444 million) to construct a 220km transmission line from Stung Tatay Hydro Power Plant to Phnom Penh.

In a filing with Bursa Malaysia yesterday, the group said Pestech Cambodia has executed a construction agreement with Alex Corporation Co Ltd to undertake the design, engineering, manufacturing, installation, testing and commissioning of the 230kV Stung Tatay Hydro Power Plant-Phnom Penh transmission system project.

Pestech said the project is expected to begin within three months from the date of the agreement and is expected to be completed within 36 months.

The agreement will have no material effect on the group's revenue and earnings for the financial year ending June 30, 2017, but is expected to contribute positively to future earnings and net assets per share.
