PART A : EXPLANATORY NOTES IN COMPLIANCE WITH MALAYSIAN FINANCIAL REPORTING STANDARDS ("MFRS") 134, INTERIM FINANCIAL REPORTING

A4. Auditors Report on preceding annual financial statements

The auditors have expressed an unqualified opinion with material uncertainty relating to going concern in Pestec International Berhad's ("the Company") audited financial statements for the financial period ended 31 March 2025. An extract of the opinion is as follows:

"We draw attention to Note 2 to the financial statements, during the financial period, the Group and the Company had incurred a net loss attributable to owners of the Company of RM341,506,000 and RM257,334,000 respectively. As at 31 March 2025, the Group's and the Company's total current liabilities exceeded total current assets by RM26,490,000 and RM114,361,000 respectively.

These events or conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's and the Company's ability to continue as a going concern.

As disclosed in Note 2 to the Financial Statements, the ability of the Group and of the Company to continue as a going concern are highly dependent on the ability of the Group and the Company to generate sufficient cash flows to meet the obligations of the Group and the Company; the continuous financial support provided by the financial institutions, creditors and holding company; and continuous effort in tendering and securing profitable projects.

If these are not forthcoming, the Group and the Company maybe unable to realise their assets and discharge their liabilities in the normal course of business.

Our opinion is not modified in this matter."

Corporate guarantees extended by the Company to financial institutions for credit facilities granted to subsidiaries as at the end of the financial period were as follows:

	Unaudited as at 31-Dec-25 RM'000	Audited as at 31-Mar-25 RM'000
Secured facilities outstanding as at:		
Loan and borrowings of subsidiaries	606,162	810,481

The corporate guarantees do not have a determinable effect on the terms of the credit facilities due to banks, financial institutions and suppliers requiring parent guarantees as a pre-condition for approving the credit facilities granted to the subsidiaries. The actual terms of the credit facilities are likely to be the best indicator of “at market” terms and hence the fair value of the credit facilities is equal to the credit facilities amount received by the subsidiaries. As such, there is no value on corporate guarantee to be recognised in the financial statements.

A20. Capital commitments

There were no capital commitments for the current financial quarter ended 31 December 2025.

A21. Significant related party transactions

B1. Review of performance

(a) Performance of the current quarter and year to date against the same quarter in the preceding year

	Current year quarter 31-Dec-25 RM'000	Preceding year corresponding quarter 31-Dec-24 RM'000	Changes	
			RM'000	%
Revenue	50,511	-	-	-
Loss before tax	(24,043)	-	-	-
Loss after tax	(26,569)	-	-	-

The Group's revenue for the current quarter stood at RM50.5 million due mainly to lower revenue recognised from the substation sector in Iraq and long term EPC sector in Cambodia which are almost achieving full construction completions.

For the quarter ended, the loss before tax for the Group was at RM24.0 million whereas loss after tax was recorded at RM26.6 million. For the quarter under review, the unrealised foreign exchange loss of RM13.1 million arising from the strengthening of Ringgit Malaysia against the US Dollar, adversely impacted the Group's results. Apart from that, overall high borrowings cost of RM13.3 million also resulted in additional loss after tax for the Group.

The financial year end of the Group had been changed from 30 September to 31 March. As such, there is no comparative financial information available for the preceding year corresponding period.

B1. Review of performance (Continued)

(b) Performance of the current quarter against the immediate preceding quarter

	Current year quarter 31-Dec-25 RM'000	Immediate preceding quarter 30-Sep-25 RM'000	Changes	
			RM'000	%
Revenue	50,511	79,743	(29,232)	-37%
(Loss)/profit before tax	(24,043)	(16,753)	(7,290)	(44%)
(Loss)/profit after tax	(26,569)	20,079	(46,648)	232%

The Group recorded a revenue of RM50.5 million for the current quarter compared to RM79.7 million for the immediate preceding quarter, representing a decrease of approximately RM29.2 million or 37%. The drop in revenue was primarily due to lower revenue from the Iraq substation and Cambodia long term EPC divisions, as these projects had been substantially completed.

For the quarter under review, the Group recorded loss after tax of RM26.6 million due to the aforementioned drop in revenue. The loss was exacerbated with the recognition of higher unrealised foreign exchange loss due to the strengthening of Ringgit Malaysia against the US Dollar as compared to immediate preceding quarter.

The financial year end of the Group had been changed from 30 September to 31 March. As such, there is no comparative financial information available for the preceding year corresponding period.

B3. Prospects

1. National Energy Transition and TNB Capital Investments

Tenaga Nasional Berhad (“TNB”), Malaysia’s leading utility provider, has significantly ramped up its capital expenditure commitment to RM42.9 billion, comprising RM26.6 billion in base capital expenditure and RM16.3 billion in contingent investments. This allocation is aimed at accelerating infrastructure development, particularly in support of Malaysia’s energy transition objectives and grid modernization efforts.

TNB expects electricity demand to rise by up to 4.5% in 2025, aligned with anticipated national economic growth of 4.5% to 5.5% during the same period. This presents substantial opportunities for grid upgrades, substation expansions, and smart meter deployment.

Source: The Edge Malaysia – “TNB doubles budgeted capex to RM42.9b to fast-track infrastructure development”, published May 13, 2025 (<https://theedgemalaysia.com/node/752817>)

2. Malaysia’s Energy Transition and NETR Initiatives

Under the National Energy Transition Roadmap (“NETR”), TNB is spearheading various initiatives to create a more sustainable and digitally integrated energy ecosystem. Key focus areas include:

Utility-scale renewable energy: Expansion of large solar farms in Chenderoh, Kenyir, and Temenggor, including floating solar panels on dam surfaces.

Centralised solar parks: Development of multiple solar parks to enhance national clean energy capacity.

Grid modernization: Digitalization and reinforcement of grid infrastructure to manage variable renewable energy inputs more efficiently.

Green hydrogen and ammonia: Pilot projects in collaboration with PETRONAS to reduce carbon intensity in power generation.

Carbon capture and repowering: Upgrades at key power plants, including the Paka facility, to incorporate low-emission technologies by 2029.

These developments are aligned with TNB’s “Reimagining TNB 2.0” strategy, which aims for net-zero emissions by 2050.

3. East Malaysia and Regional Power Export Potential

The Government of Sarawak has set a target to increase installed power generation capacity from 10 GW by 2030 to 15 GW by 2035, driven by its ambition to become a regional energy exporter. PIB’s involvement in pioneering hydrogen-based rural electrification with Sarawak Energy Berhad at Rumah Bangau exemplifies its potential to contribute to this goal.

B3. Prospects (continued)

4. Rising Demand for Digital Infrastructure and Grid Reinforcement

Malaysia's digital economy is driving rapid growth in data centre investments. The Malaysia Data Center Market was valued at USD 4.04 billion in 2024, and is projected to reach USD 13.57 billion by 2030, at a CAGR of 22.38%. This surge is expected to significantly increase electricity demand and drive capital investment into grid upgrades, backup power systems, and high-reliability substation infrastructure.

5. Rail Electrification and Urban Transport Development

Malaysia's rail industry is poised for continued growth, supported by government initiatives to promote eco-friendly transportation and reduce carbon emissions. The rail sector is expected to undergo modernization and expansion, with a focus on urban mobility, intercity rail, and electrification.

Source: Malaysian Investment Development Authority (MIDA) – “Overview of the Malaysian Rail Industry”, accessed June 2025.

PIB remains a key player in this space, offering full turnkey rail electrification solutions, in-house engineering and systems integration, and specialized construction equipment. Ongoing and completed projects such as the Automated People Mover (APM) at KLIA, KVD1, and MRT Putrajaya Line further enhance our credentials in this high-potential segment.

6. Strong Tender Book and Strategic Positioning

As of the reporting period, PIB's tender book stands at approximately RM1.5 billion, comprising major infrastructure bids in power transmission, substation upgrades, and urban transit systems. The Group remains committed to strengthening its project pipeline and building on its integrated engineering and execution expertise.

In summary, PESTEC is strategically positioned to benefit from Malaysia's accelerated energy transition, infrastructure modernization, and regional power integration efforts. With a strong presence in transmission, electrification, and engineering solutions, the Group is aligned with key national initiatives such as NETR and TNB's grid investments, while also capitalizing on rising demand from the digital economy and regional infrastructure expansion.

Across the ASEAN region, the power infrastructure market remains robust, with increasing demand for reliable electricity and resilient grid systems. PIB is well-established in the Philippines, Cambodia, and Papua New Guinea, and continues to execute strategic transmission and substation projects. The Group's proven track record and local partnerships provide a strong foundation to capture further regional opportunities.

Backed by a robust tender book, proven execution capabilities, and a growing footprint across ASEAN, PESTEC remains confident in its long-term growth trajectory and its ability to deliver sustainable value to stakeholders.
