# A17. Material Event Subsequent to the end of financial year reported A17.3 Private Placement

The second and final tranche of Private Placement was completed after the period reported:

| Date of completion                         | 28 January 2014 |
|--|-----------------|
| Number of ordinary shares on issued ('000) | 4,244           |

### A18. Contingent Assets and Liabilities

Corporate guarantees extended by the Company to financial institutions for credit facilities granted to subsidiaries as at the end of the reporting period were as follows:-

|  | Unaudited As At 31 Dec 2013 RM'000 | Audited As At 31 Dec 2012 RM'000 |
|--|------------------------------------|----------------------------------|
| Secured: Finance lease liabilities of subsidiaries | 2,580                              | 1,567                            |
| Loan and borrowings of subsidiaries                | 64,207                             | 15,769                           |

The corporate guarantees do not have a determinable effect on the terms of the credit facilities due to banks and financial institutions requiring parent guarantees as a pre-condition for approving the credit facilities granted to the subsidiaries. The actual terms of the credit facilities are likely to be the best indicator of "at market" terms and hence the fair value of the credit facilities are equal to the credit facilities amount received by the subsidiaries. As such, there is no value on corporate guarantee to be recognised in the financial statements.

Details of contingent liabilities of the Group were as follows:-

|   | Unaudited As At 31 Dec 2013 RM'000 | Audited As At 31 Dec 2012 RM'000 |  |

### B3. Variation of results against preceding year corresponding quarter

For the current financial quarter under review, we recorded revenue of RM62.3 million representing an increase of RM10.3 million or 19.8% as compared to RM52.0 million in the preceding year corresponding financial quarter. This is mainly due to increase in project awarded being implemented during this financial year.

During the financial quarter, our Project revenue had increased significantly from RM60.2 million in preceding year corresponding financial quarter to RM47.7 million, representing an increase of RM12.5 million or 26.2%. The increase in Project revenue was mainly due to billings for local projects for utilities and industrial customers in Sarawak Corridor of Renewable Energy (SCORE) region.

During the financial quarter, our Group recorded Product revenue of RM2.1 million, a decrease of RM2.2 million or 202.3% from RM4.3 million recorded in the preceding year corresponding financial quarter. The decrease was mainly due to our Product being used in our own Projects.

The Group recorded a profit after taxation of RM6.6 million, a decrease of RM2.6 million or 28.3% as compared to preceding year corresponding financial quarter of RM9.2 million.

### **B4.** Prospects

PESTECH closes another record year in 2013 with turnover of RM181.8 million and generating a new height of profit after tax of RM20.463 million.

The upward development trend is anticipated to persist in 2014 fuels by strong order book and a promising tender book. As at 31 Dec 2013, PESTECH's order book stands at RM342 million with a major tender book reaching RM1.578 billion.

The Group's track record in the design, engineering and building of power transmission and distribution infrastructure is gaining solid foothold in the markets where it serves. PESTECH continues to strengthen its market presence by putting in relentless efforts to seek new projects in these areas.

In the local front, a total of RM507 million of tenders have been submitted to the local utility companies for various transmission and distribution projects in the West and East Malaysia. Our major tender book as quoted to industry customers both domestically and overseas recorded a total of RM770 million. Adding to that, the remaining major tenders to various potential utility and industrial customers in Loas, Myanmar, Cambodia, Sri Lanka, Mali and Ghana, summed up to the total major tender book of RM1.578 billion, which could be a potential contributor to the future revenue generation of the Group.

The Group has also embarked on a new potential business segment to be housed under a wholly owned subsidiary, PESTECH Technology Sdn Bhd ("PTECH"). PTECH will be involved in the area of balance of plant equipment for power plants and the power plant operation simulation systems for the power generation industry players. It is hopeful that this new segment of business would open up a route for the Group to expand vertically into certain portion of the power generating business which could bring financial and corporate enhancement to PESTECH.

### B4. Prospects (Cont'd)

On the progress of our Technical Cooperation Agreement ("TCA") with ABB Group, we are sending our team of engineers for design and manufacturing training at the ABB training facility in Xiamen, China. In the meantime, the Group is in the midst of procuring building approvals for the construction of its new factory in Bukit Berutung.

Both PTECH and the TCA with ABB will help to diversify the revenue mix of the Group in the future such that contribution from project based business will be complimented by those generated from products and services based segments.

The Group is confident that with the strong existing business base coupled with encouraging prospective business potentials which it has planned, the Group would be cruising towards yet another promising year in 2014.

### B5. Profit forecast and profit guarantee

There were no profit forecast or profit guarantee in any public document by the Group.
